## Experience

**Web Developer** - 08/2016 to 11/2019

- In 2016, During training with Holol Company, I worked on some simple project, so I design first one-page web template named “gym Egypt”, using pure HTML5, CSS, with some jQuery plugins. At the end to this training I designed “visit Egypt” web template.
- In 2017, I improve my skills, and designed responsive “Omnifood” web template by Pure HTML5, CSS, jQuery plugins, also “sky ideas” and “woodefur” web template Powered by responsive Materializecss front-end framework.
- In 2018, designed and developed graduation project of “Emergency system” using Asp.net MVC, C#, Code first entity framework, Restful API concatenated with android mobile app.
- In 2019, designed and developed web application concatenated with android mobile app to Laboratories of International medical center.
